## EXPERIENCE AND CAMPUS INVOLVEMENT

**Headstarter AI** July 2024 - Sept 2024

*Software Engineer Fellowship*

- Created 5 AI projects in 5 weeks, with a final project that will either get 1000 waitlist signups, have 1000 accounts created, or generate \$1000 in revenue.

**New Brunswick Intercollegiate Athletics** Sept 2021 - Present

*Bookkeeping/Accounting Assistant*

- Assisted with organizing invoices and locating their respective organization and deadline.
- Documented information of each invoice and determining if it met deadline requirements.

**Rutgers Association of Philippine Students** Sept 2022 - May 2023

*Underclassmen Representative/Intern*

- Interns are exposed to how a college e-board functions, which helped with my professional and personal development.

## PROJECTS

**RuThrifting** Junior 2023 (Hackathon Project)

CSS | HTML | JavaScript | React | Firebase | VS Code

- Developed a website during a hackathon to allow Rutgers students to buy and sell clothes locally.
- Implemented user account creation, enabling users to post clothing items and view other posts.
- Integrated filtering functionality to sort posts by campus and clothing type.

**BuyMe-Sneakers Project** Junior 2024

Java | SQL | HTML | Eclipse | Git | MySQLWorkbench

- Developed and managed an e-commerce web application for buying and selling sneakers.
- Designed and implemented the database schema using SQL, including tables, relationships, and constraints to support application functionalities.
- Collaborated with a team to integrate the database with the application, ensuring efficient data retrieval and management.

**2048 Game Program** Sophomore 2023

Java | VS Code

- On-screen program that replicates the 2048 puzzle game.
